## 4. Purposes

The company's subject is the development, production and distribution of mainly electromechanical and electronic components for the household device business. The collection, processing and use of data is effected in accordance with

the above mentioned purposes, for fulfilment of contracts or similar relations based on confidence with the persons concerned, due to legal regulations or for any other purposes legalised by BDSG. Furthermore, collecting, processing and using data also serve HR administration as well as support service to customers, suppliers and visitors.

## 5. Description of the group/s of person/s concerned, data and data categories

- Customer data (e. g. contact person, address, contractual, payment data and specifications made voluntarily by persons concerned)
- HR data (e. g. planning, master and salary statement data, e. g. of employees, applicants, retired staff)
- Prospective customers (e. g. address data)
- Suppliers (e. g. master and billing data), if necessary, for serving the purposes mentioned above in no. 4.
- Visitors (e. g. address data)

## 6. Recipients likely to receive such data

- Public institutions provided that predominant legal regulations have been submitted
- External clients as per para. 11 BDSG and
- External centres and centres with E.G.O. for serving the purposes mentioned in no. 4

## 7. Specified periods for data deletion

Upon expiry of statutory periods or in case the purposes mentioned in no. 4 no longer apply, the data is deleted as a matter of routine.

## 8. Transfer of data to Third countries

A transfer of personal data to Third countries (non-EU) is not intended.
